My name is Yousef Durgham Abdul Hassan and I am 23 years old. I graduated from the Department of communications Engineering from Al-Ma'mun College in 2020. I have two years of work experience at the Islamic World Bank in the Department of IT. I have four years of experience in the field of programming and I have a project for a platform similar to Disney movies that contains an integrated system, you can access my GitHub account to watch my project and I am confident that I will accept in this job because i have a lot of programming information that distinguishes me from most of the programmers in Iraq. my Github account:
